CC MO 15C 2412.0 - 2462.0 0.914

Power listed is the maximum combined conducted output power. This device must be professionally installed. Marketing to the General Public is prohibited. Only those antenna(s) tested with the device or similar antenna(s) with equal or lesser gain may be used with this transmitter. The use of other antenna requires a Class II Permissive Change filing. The antennas used for this transmitter must be installed to provide a separation distance of at least 28 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter, except the collocation as described in this filing or in accordance with FCC multi-transmitter product guidelines. End -users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance. This device has 20 MHz and 40 MHz bandwidth mode.

CC: This device is certified pursuant to two different Part 15 rules sections.

MO: This Multiple Input Multiple Output (MIMO) device was evaluated for multiple transmitted signals as indicated in the filing.
